

# Arizona Space Rock Camp (Summer 2025)

Dive into the fascinating world of asteroids and meteorites in this exhilarating **two-week immersive Summer Camp at the Lunar & Planetary Laboratory!**

This opportunity is open to current undergraduate students from Arizona institutions (including universities and community colleges). **No prior experience is required. A modest stipend will be provided.**

**Applications will be accepted until November 27, 2024, 11:59 PM AZ time.**

If you have any questions, contact Dolores Hill ([dhill1@arizona.edu](mailto:dhill1@arizona.edu)).

# Arizona Space Rock Camp (Summer 2025)

Experience engaging presentations by leading experts, get hands-on with space rock analysis using advanced analytical instruments, and enjoy other interesting activities and tours in early summer 2025 (tentatively the first two weeks of June).

This opportunity is open to current undergraduate students from Arizona institutions (including universities and community colleges). No prior experience in astromaterials or planetary science is required. A modest stipend will be provided to support participation.

We especially encourage students from institutions that may not typically have access to such unique experiences. Apply today for a chance to explore the wonders of space science!

**Scan the QR code to access the application form** (<https://forms.gle/SQ62aLeRML8jZinAA>). **Applications will be accepted until November 27, 2024, 11:59 PM AZ time.** Contact Dolores Hill ([dhill1@arizona.edu](mailto:dhill1@arizona.edu)) if you have any question.
